

REMARKS

Applicants hereby elect Group III, claims 42-47 without traverse and as amended above. Claims 1-41 have been canceled, while new claims 48-70 have been presented for consideration by the Examiner and are believed to be directed to patentable subject matter. Further, certain ones of the original claims such as, for example, claims 42 and 47 have been amended in a way which is not believed to change the scope of the claims in any substantive way, but enhances their readability. Applicant hereby reserves the right to present the canceled claims in divisional applications.

If the Examiner has any questions concerning this case, the Examiner is respectfully requested to contact Mike Pritzkau at 303-410-9254.

Respectfully submitted,
